Summary

A motivated Computer Science student skilled in Python and Java , with experience in full-stack web development. Proven track record of building predictive models with over 90% accuracy and developing scalable web applications. Strong problem-solving abilities and a commitment to innovation.

Education

Bachelor of Technology in Computer Science

Rajiv Gandhi Proudyogiki Vishwavidhyalaya (R.G.P.V), Bhopal
CGPA: 7.89

Higher Secondary (12th)

Seth Guru Prasad Agrawal Higher Secondary School, **June 2021 – May 2022**
Percentage: 90.6 %

Secondary (10th)

Seth Guru Prasad Agrawal Higher Secondary School, **June 2019 – May 2020**
Percentage: 88%

Technical Skills

Languages: Java, C++, Python, HTML5, CSS3, JavaScript

Database: MySQL , MongoDB

Frameworks: Spring, Spring Boot, NumPy

Tools: VS Code, Jupyter

Projects

E-Vehicle Booking System

Technologies: Java, Spring Boot, Thymeleaf, HTML, CSS, JavaScript, MySQL
GitHub: https://github.com/neharajput591/evehicle_booking_system

- Developed a **full-stack web application** for electric vehicle booking with secure user and admin modules.
- Built **dynamic and responsive UI** using **Thymeleaf, HTML, CSS, and JavaScript**, integrated with Spring Boot backend
- Implemented **end-to-end booking flow** including vehicle listing, cart management, order placement, and feedback submission.
- Designed and maintained **MySQL database schema** for users, vehicles, orders, and feedback.
- Ensured smooth **frontend–backend integration** using Spring MVC and server-side rendering.

Visa Management System

Technologies: Spring Boot, Thymeleaf, Java, MySQL

GitHub: https://github.com/neharajput591/Visa-Management-System

- Developed a **web-based visa management system** to streamline operations like visa charge calculation, calendar scheduling, and user/admin authentication.
- Designed and implemented **user-friendly UI with Thymeleaf** and integrated backend using Spring Boot.
- Managed **data storage and retrieval** using MySQL for applicants and administrative records.
- Improved efficiency by enabling centralized access for users and administrators.

Pachmarhi Tourism Guide Website

Technologies: HTML, CSS, Java (Servlets/JSP), MySQL, Maven

- Built a **tourism information website** to help visitors explore Pachmarhi with details of hotels, restaurants, guides, and tourist attractions.
- Designed **responsive web pages** using HTML and CSS for better user experience.
- Developed backend logic with **Java (Maven Web Project)** and connected it with a **MySQL database** to dynamically fetch and display information.
- Delivered a **scalable platform** that simplifies access to travel details for tourists.

Certifications

- C and C++ Programming Language Certification (Prime Step)
- Successfully completed NPTEL certification in *Programming in Java* with **95% score**, securing a position among the **top performers**
